Version 2 Permission, privacy link and ID composition added.

Version 3 Cover page with title and version. Changelist added. Instructions to download the app from the app store. Term 'device' explained.

inepro[®] Download from app store

If you do not own the Spider ID App already, follow these instructions to download it from the app store:

1. Search the Apple Store or Google Play store for 'Spider ID' (by Inepro B.V.), it should have the image below as logo:

2. Click install.

inepro[®] Identification

The Spider ID app is an easy way to identify yourself at one of the Spider RFID readers.

Look for the black and gray RFID Reader foil on your device. Your device is usually an MFP, but could also be some other device, the RFID Reader foil is key, it means a Spider RFID Reader is installed behind it.

Privacy

The ID that is send to the device is a GUID. It is created from various components within your mobile phone that together can uniquely identify you.

To protect your privacy and for security reasons, you will get a new ID when you switch your phone, your provider or SIM card. You can identify yourself with more then one ID, so using multiple phones or SIM cards is possible.
